# SUBSCRIPTION

Training, best practices and productivity boosters built in.

Your ACL subscription includes access to on-demand training, a global peer community and resources to boost professional development.

To help you succeed, we invest heavily in creating a Productivity Ecosystem to support you. More than just user guides, ACL's Productivity Ecosystem provides an enhanced continuous learning environment, including CPE credits, on-demand training, best practices, productivity boosters and the ability to connect with your ACL peers—all at your fingertips.

Your ACL subscription includes our entire Productivity Ecosystem plus access to ACL Community, the latest software updates and optional tools. All this is available through your ACL Launchpad.
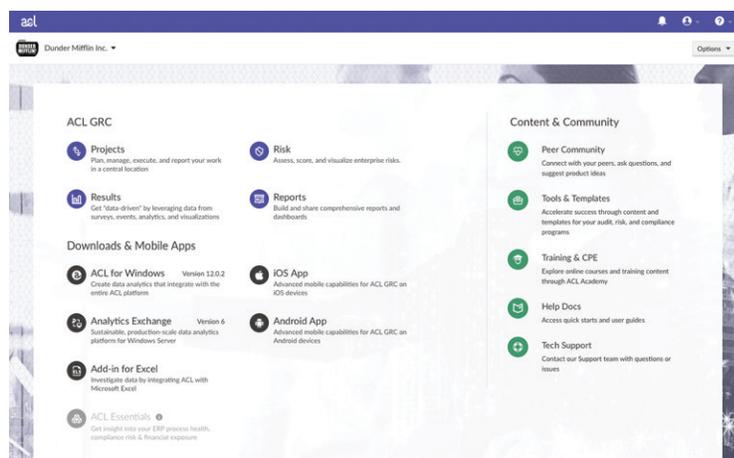

ACL Launchpad

PRODUCTIVITY ECOSYSTEM

Academy

24/7 online, interactive, comprehensive training. Upskill yourself and your team with self-paced lessons and demonstrations to learn new ways to apply ACL software. Nearly all courses in Academy offer sample data files and case studies to provide a broader context. Learning series are tied to common process areas, such as testing journal entries, payroll, T&E and more—a powerful way to immediately connect techniques with real world applications. **Coming Soon! Earn 30+ CPE credits.**

Peer Community

Connect with thousands of passionate ACLers and gurus in the ACL Community. Share best practices, discuss strategies, swap techniques and exchange experiences with other ACL users. Find information fast and contribute answers to help your peers. Earn points and raise your status within the community. Join a private user group to interact with local members and get the scoop on the latest events and news. You'll become a super smart ACL wiz in no time. And who knows, you could be the next ACL Community guru.

Inspirations

Hundreds of testing ideas built from decades of experience. Categorized by process area and industry, finding inspiration for where to apply data analytics is easy. Each analytic inspiration includes things to consider when implementing the test, as well as real world examples to illustrate the risk scenario. It's social, so you can favorite, comment, and contribute your own inspirations. Tell the world that you've implemented a particular inspiration, and share your expertise. Download or request analytic scripts with a click.

Help Docs

Next generation how-to documentation. Documentation for your grampa's generation sucked. We take "how-to" seriously and hired awesome writers to help you stay up to speed, 21st century style. Analytics is hard and your organization's processes and GRC activities are complex—we'll break it all down and simplify what you need to know to accelerate learning, make you sought after, and deliver more value. Animated GIFs and videos help explain when a picture is worth a thousand commands.

Optional Software Tools Included:

ACL Results Manager Lite
(optional activation)

ACL™ Results Manager Lite is an easy-to-use collaborative app to centrally, securely and swiftly interact with any stakeholder, collect evidence, send surveys, manage the results workflow of data analysis and surveys, share visualizations and assign flagged records for quick review and remediation—to supercharge the value you drive to improve performance across the organization and enable integration of data analysis across GRC departments. (Turned off by default; opt-in to activate access).

ACL Add-In for Excel®
(free download)

A free tool that takes Excel® to the next level. Get started learning data analysis techniques using a familiar tool. As powerful as Excel® is, it wasn't purpose-built for GRC professionals. After all, we've all made a formula mistake or struggled to maintain an activity log of work we've done in spreadsheets. Download the ACL Add-In for Excel® to bridge the gap between standard Excel® functions and what GRC professionals need to do their jobs.

ACL Support: support@acl.com

YOUR ACL SUBSCRIPTION ALSO INCLUDES:

Knowledge Base

Our knowledge base goes far beyond basic how-to documentation. To ensure your success, we provide a searchable online reference library at your fingertips. With hundreds of articles, FAQs and best practices, you'll find everything you need. Whether you need tips on accessing data and creating scripts or techniques on finding duplicates and testing gaps, all your commonly asked questions are covered. The online ACL knowledge base will help you achieve better results and turbocharge your analytics.

Up-to-Date Software Releases

Don't miss the opportunity to stay up to date with the latest software versions. Subscription means that ACL must earn your business by continually delivering more of what you need to be more efficient and effective. With ACL, you'll never be stuck with old versions. We constantly enhance our software, so you don't have to wait out a long release cycle. ACL Launchpad provides immediate access to product upgrades, new releases, localized editions and up-to-the-minute information from ACL's product team.

Support Center, 24X5, M-F

Our support experts ensure you get the answers you need, when you need them. ACL support experts are your partner in Data-Driven GRC, available by email or live chat to help you save time and achieve your business objectives. With Status Tracking, you can view, update or reprioritize your active support requests. Contact ACL Support by email or live chat—24 hours a day, 5 days a week—for fast results and unparalleled technical service.

Pre-built Analytics in ScriptHub

Apply advanced data analytic techniques without reinventing the wheel. Scripts are open-sourced, well documented, and follow best practices: a great way to learn the craft and create innovative new solutions in a fraction of the time. ScriptHub also includes scripts that integrate with common data sources such as SAP ERP, Concur, and Active Directory, as well as scripts that pull in common data lists, such as the SAM.gov/OFAC, OIG-LEIE, and the Corruption Perception Index (CPI). Download, unzip, and merge scripts right into your current working project with the click of a button.

AuditNet® Premium Subscription

Receive at no extra cost an annual Premium AuditNet® subscription for each licensed user (value of up to US$140/user). AuditNet® has been a valued source for audit resources for 20+ years. You get access to over 2,000 audit work programs, a monthly newsletter, a resource list containing over 1,300 online audit resources, and vertically-based user-populated content.

Product Collaboration

No one knows what you need better than you. That's why we want you to share your ACL product ideas. Check out ideas from your peers, provide feedback, interact with our expert product designers and vote on ideas in ACL Community. We respond to every post and we keep you updated on new features and requests that we are working on. You have great ideas on how to make our software more awesome and we want to hear from you!
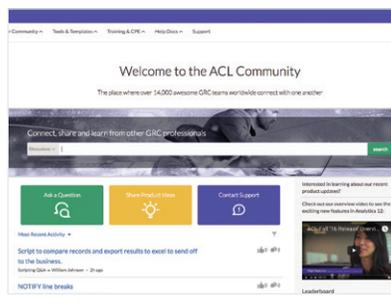

Community: Connect with thousands of ACLers
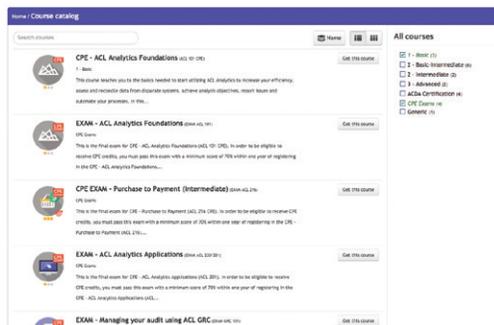

Academy: On-demand video learning series for analytics & GRC activities
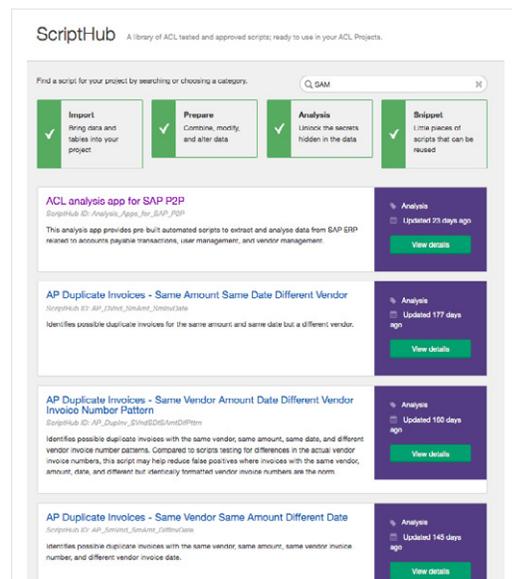

Scripthub: Hundreds of plug & play analytic scripts
